

26 DEC 1972

MEMORANDUM FOR: Planning Staff, OL

ATTENTION : Mr. [REDACTED] 25X1A9A
SUBJECT : Storage Space for Agency Museum Artifacts

Frank:

It is my understanding that the Agency Museum Committee had its first meeting recently and discussed plans for future exhibits and related matters. While it is perhaps premature at this point to address in detail storage and archival space requirements for museum material, I assume this will be forthcoming and OL will be requested to provide needed space.

I would appreciate your keeping me apprised of the requirements for such space in terms of square footage, environmental aspects, security levels to be maintained, types of materials to be stored, and degree and readiness of access.

25X1A9A
